

When you
have a wiggling tooth.

by Sophia Perez

When you have a wiggling tooth
you should wiggle your tooth.

You wiggle, wiggle, wiggle your tooth.

When you feel your tooth is ready to fall,
you wiggle, wiggle, wiggle your tooth.

If it doesn't fall
you try again.

You wiggle, wiggle, wiggle your tooth.

If it does,
you smile with your best
happy, happy, happy
missing tooth smile.
