When you have a wiggling tooth.

by Sophia Perez
When you have a wiggling tooth
you should wiggle your tooth.
You wiggle, wiggle, wiggle your tooth.
When you feel your tooth is ready to fall,
you wiggle, wiggle, wiggle your tooth.

If it doesn't fall
you try again.
You wiggle, wiggle, wiggle your tooth.

If it does,
you smile with your best happy, happy, happy, happy missing tooth smile.
