HONEY

- Simone D'Costa

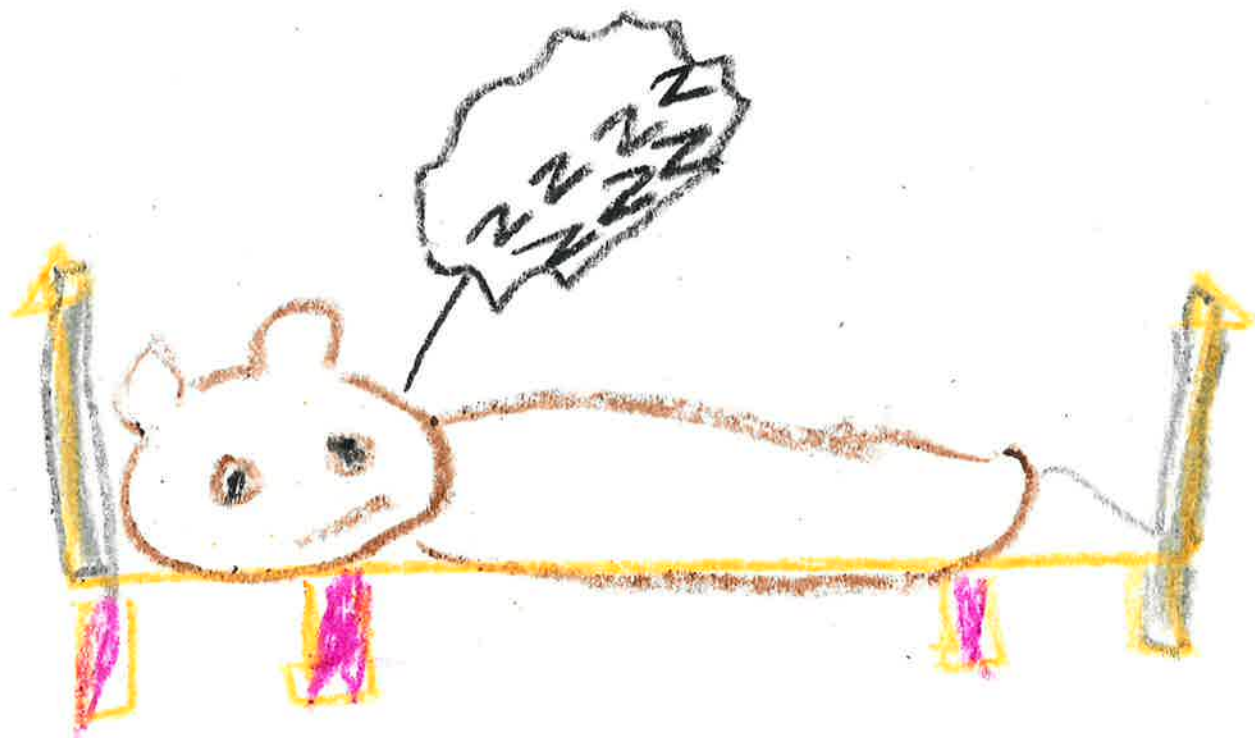

In a forest not too far
away lived a big bear. Bear loved
to play and explore the forest.

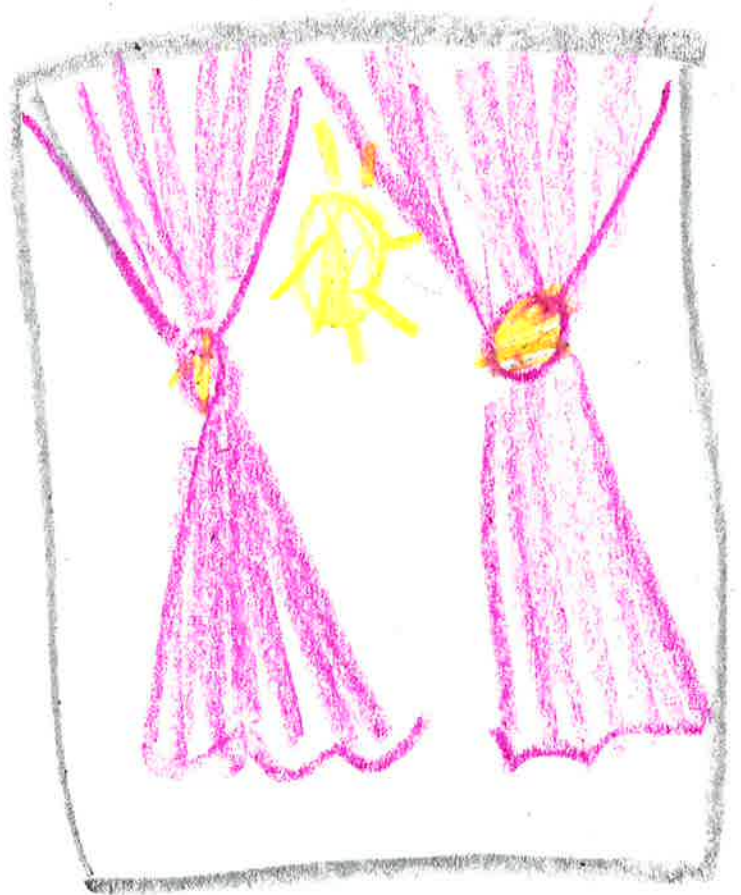

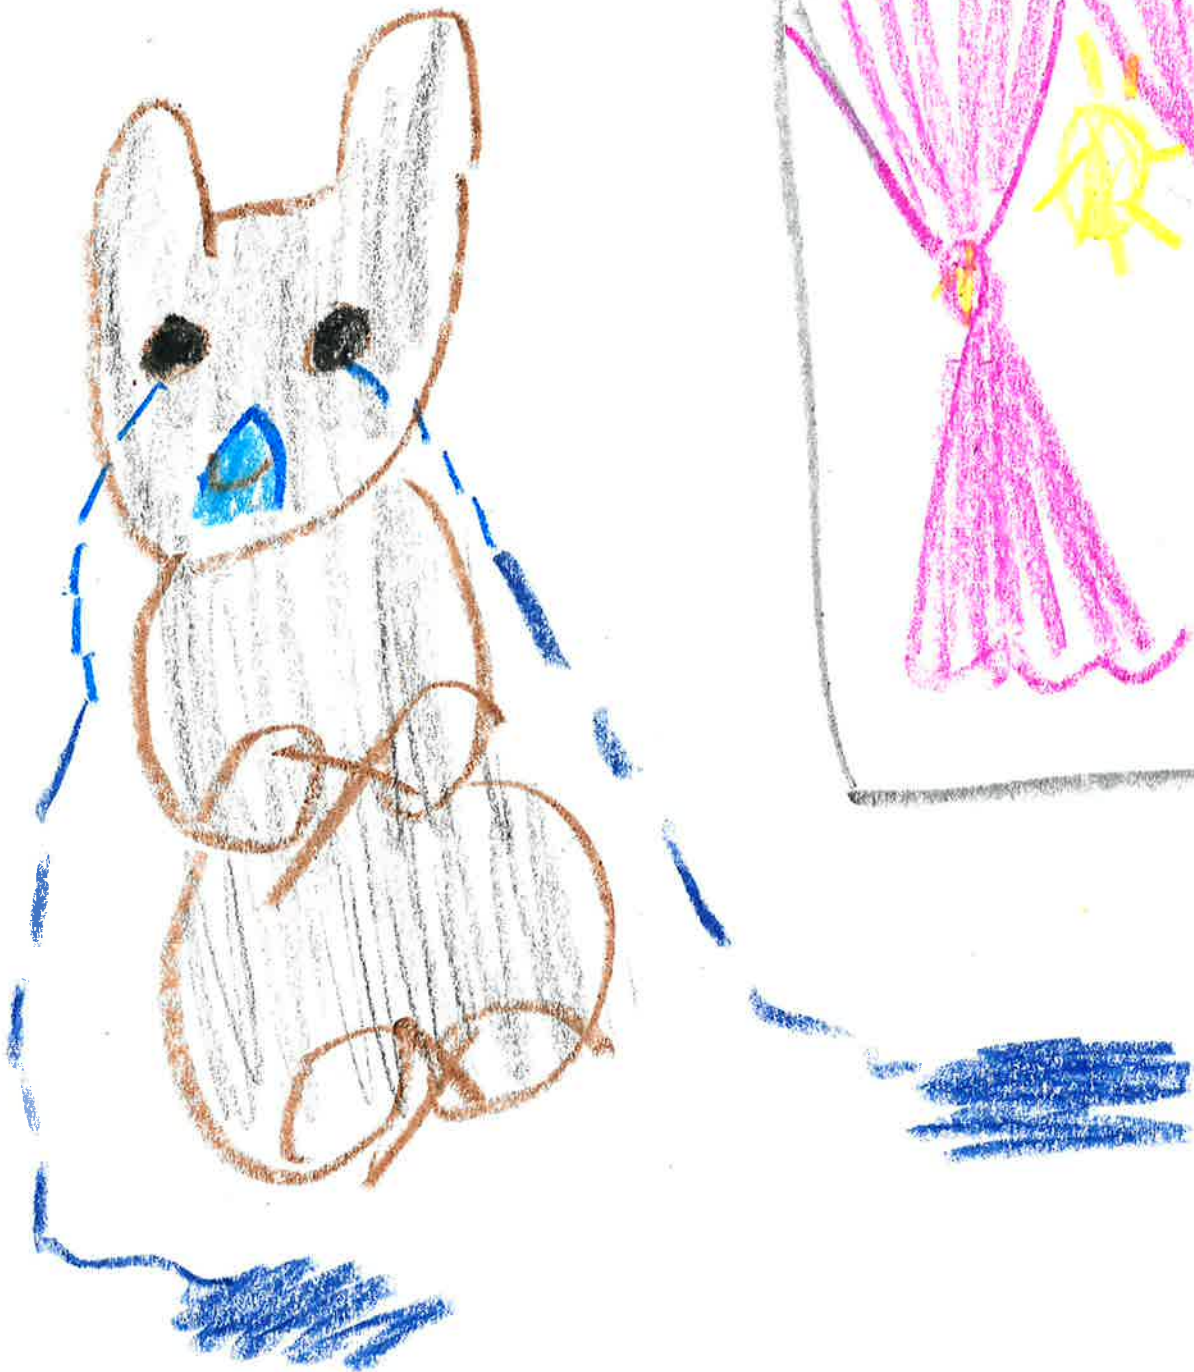

Bear loved to eat honey.
Only honey! Day and night
he only ate honey.

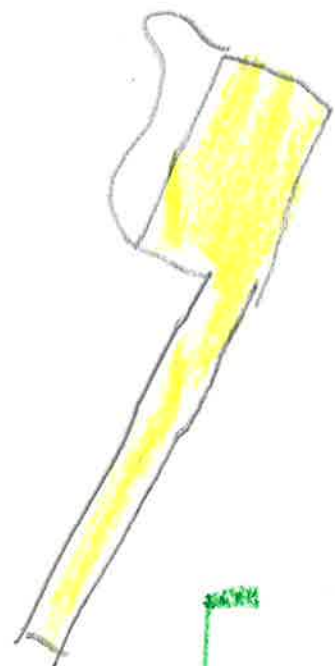

The honey made Bear sleepy
and he forgot to brush his
teeth.

When Bear awake, he had
a terrible toothache. His head
hurt. He cried painful tears.

His friend butterfly told
him to brush his teeth, eat
healthy food and
drink water.

Bear decided to take care
of his teeth. He brushed
and ate yummy fruits.
And he was all happy
again. Now a little honey
for dessert!

The END
