PIE PASTRY
2 sticks cold unsalted butter ¼ tsp baking powder
2 ¼ cup pastry flour 5 to 6 T ice water
¼ tsp salt

• Divide the butter into two parts, about 2/3 to 1/3. Cut butter into ¾ inch cubes and wrap in plastic wrap. Freeze smaller portion for at least 30 minutes. Refrigerate larger portion.
• Place the flour, salt, and baking powder into a freezer bag and freeze for at least 30 minutes.
• Place the flour mixture into a food processor fitted with the metal blade and process for a few seconds to combine.
• Add the larger amount of butter cubes to the flour and process for about 20 seconds, until mixture resembles coarse meal. Add the remaining frozen butter cubes and pulse until all of the frozen butter is the size of peas.
• Add 5T of ice water and the vinegar and pulse 6 times. Pinch some of the mixture between your fingers. If it doesn’t hold together, add 1 more T of ice water and pulse 3 times. Repeat if necessary. Remove mixture to a large mixing bowl & knead. Refrigerate until ready to use.
